Subject Index to Volume 21

Amino acids

taste, taste responses, threshold activity, solubility 405

Androstene (AND)

odor, pementone (PEM), isovaleric acid (IVA), reciprocal efficacy 711

Aspartame/acesulfame-K mixtures

Equiratio Mixture Model, sweetness, aqueous solution, acidic solution 1

Astringency

pH, organic acids, sourness 397

taste, glossopharyngeal nerve, tannin-protein complexation, *Xenopus* 459

Autonomic regulation

visceral afferents, baroreflex 387

Baroreflex

visceral afferents, autonomic regulation 387

Calmodulin

chemoreception, calcium pump, *Paramecium*, antisense 55

Chemoreception

calmodulin, calcium pump, *Paramecium*, antisense 55

Hydra, feeding, satiety, glutathione 313

odor dispersal, pheromones, ocean 121

Chorda tympani nerve

sugar responses, the *db* gene, genetically diabetic mouse 59

Circumvallate papillae

taste, taste bud, glossopharyngeal nerve, fibroblast, macrophage, rat 467

Equiratio Mixture Model

aspartame/acesulfame-K mixtures, sweetness, aqueous solution, acidic solution 1

Flavours

preference, perception, elderly 293

Food preferences

fat flavor, sweet taste, food deprivation, conditioned flavor preferences, rat 169

Forskolin

signal transduction, vomeronasal organ, accessory olfactory bulb response, calcium, ruthenium red, turtle 763

Fragrance compound

pharmacokinetic studies, 1,8-cineol, human 477

GTP-binding proteins

olfactory epithelium, cilia, mucus, rat 181

Gustation

nucleus tractus solitarius (rNST) neurons, neurotransmitter activity, neuromodulator activity 377

olfaction, taste, detection threshold 417

Gustatory signalling

taste buds, GUST 27, G-protein-coupled receptors, Gi-protein α -subunit 335

Hydra

chemoreception, feeding, satiety, glutathione 313

Inhibition by Ca^{2+} ions

taste response, glossopharyngeal nerve, Ni^{2+} -enhanced response to Na^{+} ions, sodium receptor, frog 65

Labeled magnitude scale (LMS)

taste, smell, magnitude estimation 323

Lectins

olfactory receptor cells, olfactory bulb, olfactory epithelium, topography, olfactory nerve 13

Mouth movements

taste, adaptation, sweetness 545

Neural response

pheromone discrimination, insect antennal lobe, macroglomerulus, moth, cockroach 19

Neuronal excitability

olfactory bulb, evoked field potential, long-term potentiation, push-pull, rat 159

Nucleus solitarius

neuropeptides, neurotransmitters, localization 367

Nucleus tractus solitarius (rNST) neurons

gustation, neurotransmitter activity, neuromodulator activity 377

Odor

agriculture, polymer odor sensors, pig slurry 495

dispersal, chemoreception, pheromones, ocean 121

environmental odors, odor perception, belief about risk 447

odorant receptor molecules, olfactory epithelium, olfactory receptor neurons, channel catfish (*Ictalurus punctatus*) 519

odorant similarity, cross adaptation 223

odorant-binding proteins, odorant discrimination, moth species 719

olfaction, odor evaluation, olfactory sensitivity, pregnancy 567

olfaction, phenotype, threshold, musk, human 411

orthonasal identification, retronasal identification, vapor phase stimuli, common substances 529

pementone (PEM), androstene (AND), isovaleric acid (IVA), reciprocal efficacy 711

QSAR, 3D model, CoMFA, human olfactory threshold values 201

recognition memory, odor identification, switch and bait 35

recognition memory, odor profile, pattern recognition, neural network, levels of processing 553

taste, Olsson's interaction model, mixture perception 283

Olfaction

- gustation, taste, detection threshold 417
- odor, odor evaluation, olfactory sensitivity, pregnancy 567
- odor, phenotype, threshold, musk, human 411
- pheromones, olfactory function, biological responsiveness, sex pheromone systems 245
- pheromones, olfactory research, odor discrimination, peripheral mechanisms of detection, expression of behavior 241
- pheromones, olfactory transduction, peripheral mechanisms, chemoreception, moth 257
- spectral sense, signal transduction, primary olfactory reception, spectroscopic mechanism 773

Olfactory bulb

- acetylcholinesterase, mucosobulbar projections, WGA-HRP, modified glomerular complex, rat 303
- neuronal excitability, evoked field potential, long-term potentiation, push-pull, rat 159

Olfactory memory

- familiarity, labeling, descriptive panel 699

Olfactory nerve

- trigeminal nerve, anosmia, hyposmia, irritation, pain, chemosensory event-related potential 75

Olfactory receptor cells

- lectins, olfactory bulb, olfactory epithelium, topography, olfactory nerve 13

Organic acids

- astringency, pH, sourness 397

Pemenone (PEM)

- odor, androstenone (AND), isovaleric acid (IVA), reciprocal efficacy 711

pH

- astringency, organic acids, sourness 397

Pharmacokinetic studies

- fragrance compound, 1,8-cineol, human 477

Pheromone discrimination

- neural response, insect antennal lobe, macroglomerulus, moth, cockroach 19

Pheromones

- chemoreception, odor dispersal, ocean 121
- olfaction, olfactory function, biological responsiveness, sex pheromone systems 245
- olfaction, olfactory research, odor discrimination, peripheral mechanisms of detection, expression of behavior 241
- olfaction, olfactory studies, information processing 269
- olfaction, olfactory transduction, peripheral mechanisms, chemoreception, moth 257

Recognition memory

- odor, odor identification, switch and bait 35
- odor, odor profile, pattern recognition, neural network, levels of processing 553

Saccharin

- taste, electrophysiology, nucleus of the solitary tract, rat 147

Signal transduction

- forskolin, vomeronasal organ, accessory olfactory bulb response, calcium, ruthenium red, turtle 763

Smell

- labeled magnitude scale (LMS), taste, magnitude estimation 323

Spectral sense

- olfaction, signal transduction, primary olfactory reception, spectroscopic mechanism 773

Sucrose octaacetate congenic quartet

- SW.B6 SOA nontaster congenic strains, mice 507

Sugar responses

- chorda tympani nerve, the *db* gene, genetically diabetic mouse 59

SW.B6 SOA nontaster congenic strains

- sucrose octaacetate congenic quartet, mice 507

Sweetness receptor

- evolution, gustatory responses, primates, non-human primates 747

Tannic acid

- taste cortex, orbitofrontal cortex, insula cortex, astringency, primate 135

Taste

- amino acids, taste responses, threshold activity, solubility 405
- astringency, glossopharyngeal nerve, tannin-protein complexation, *Xenopus* 459
- circumvallate papillae, taste bud, glossopharyngeal nerve, fibroblast, macrophage, rat 467
- detection, masking, aging 211
- gustation, olfaction, detection threshold 417
- human taste psychophysics, amiloride, NaCl, saltiness 113
- labeled magnitude scale (LMS), smell, magnitude estimation 323
- mouth movements, adaptation, sweetness 545
- MSG, polysaccharide taste, Polycose, glutamate, taste profiles 341
- odor, Olsson's interaction model, mixture perception 283
- perception, stress, bitter, sour, sweet 195
- receptor sites, structure-activity relationships, human 425
- response, binary amino acid mixture, sea catfish (*Arius felis*) 45
- saccharin, electrophysiology, nucleus of the solitary tract, rat 147
- signal processing, neuromodulators, neurotransmitters 353
- solitary nucleus, whole cell recording, development, dissociated cells 729
- thresholds, sucrose, NaCl, QHCl, citric acid, increasing age Sprague-Dawley rat

Taste buds

- gustatory signalling, GUST 27, G-protein-coupled receptors, Gi-protein α -subunit 335

Taste cells

- vasopressin, Ca^{2+} , cAMP, perforated patch clamp, frog 739

Taste cortex

- tannic acid, orbitofrontal cortex, insula cortex, astringency, primate 135

Taste intensities

- sweetness, saltiness, memory, *ad libitum* mixing 29

Taste response

- inhibition by Ca^{2+} ions, glossopharyngeal nerve, Ni^{2+} -enhanced response to Na^{+} ions, sodium receptor, frog 65

Trigeminal nerve

olfactory nerve, anosmia, hyposmia, irritation, pain,
chemosensory event-related potential 75

Vasopressin

taste cells, Ca^{2+} , cAMP, perforated patch clamp, frog 739

Visceral afferents

baroreflex, autonomic regulation 387

Vomeronasal organ

signal transduction, forskolin, accessory olfactor bulbar
response, calcium, ruthenium red, turtle 763
